

BREAKWATER

DOVER BREWED MODERN BEER.

Welcome to the taproom of Breakwater Brewery. From what is an old school idea, traditional to many of the hundreds of small breweries in the Franconia area of Bavaria, known as "Ausschank" blurred with the ambitions of the many small brewery taprooms as part of the resurgent *craft beer* scene in the US. We offer both cask and keg beers, as we're agnostic to the ideals and opportunities that both formats present. We've a selection of cask beers and our own keg beers, poured both on gravity from the cask and from our custom back bar dispense. We've complimented our beers with selected Gins, Wines, Whisky and Ciders, as well as a diverse range of bar snacks. Read on...!

All our beers are brewed with our unique spring water, Simpson's malts, Barth Haas hops and specialist yeasts selected for their particular beer.

ABOUT BREAKWATER

Firstly, thank you for coming to breakwater brewery's taproom! little bit of info about us

About Breakwater: Opened in late 2016, around Christmas. We're a brewery started by good friends and family. We didn't start it due to a lack of good beer, or whatever people like to say in this part of their communications. We wanted to do something that was awesome. We wanted to have fun, doing something that we love. We've spent a long time building the foundations of the brewery. We (think we) have the talent, and most importantly the years of experience needed to get it done. So we did it. We have funded the company on our own, and only want to work with people that care about beer, super good beer and the journey. Our goal is to show people what is possible when you start with "make great beer", "invite good people to drink it".

Our mission is simple but comes from the heart. Breakwater, is both brewery and taproom, a place where good people will congregate and experience our beers and with one another. Beer is a sociable beverage at it's heart. We are people that thrive off our community and industry partners. But besides the libations, it's a place that will hope will be a cornerstone to the continued revitalisation of Dover. Humans are essentially social creatures. We are committed to providing quality beer and superb service experiences, and helping Dover get back to where it once was.

At Breakwater, building on our experiences from our travels, prior brewing experiences, creating beers we've brewed to award winning and celebrated standards, we challenge ourselves to continually come up with innovative, new beers that will not only allow for a unique experience for you, our customers, but that will also provide an ever-changing menu to attract those to come and enjoy Breakwater and Dover.

Aside from brewing ales and lagers of distinction, authenticity and honesty, you can expect those values to apply to our everything, be that snacks or the welfare of our co-workers. We are passionate for what we do and with that passion we show responsiveness and compassion in serving our customers, our energy usage and our locale. Breakwater takes pride in helping other small and local through partnerships and collaborations. Our goal is to be an establishment that the our town can point to as a beacon of a small business success and help lead the revitalization so it can return to its illustrious past.

We acknowledge that our industry is constantly changing. At Breakwater, we encourage change and in fact demand it from all our projects. This willingness provides for a quality product and an unmatched attention to detail.

How we make our beer: Just like the huge number of small scale brewers today in the UK, and around the world, we're not bound by brand, management or accountants. It's about discovery and curiosity with out corporate filters. We're located on what was previously a brewery, "Harding's Wellington Brewery", we're incredibly fortunate to have our own unique water source. Combine with the best malts money can buy from Simpson's Maltings, the world class hops from Barth Haas and selected yeast strains - we aim for the best beer we can make. Whether it's our IPA's made with vastly different types of hops, or our dark beers showcasing depth and distinction of the malts, it's based on our own spring water managed for immaculate body and spirit of the beer, it's about quality, not quantity. At Breakwater, we believe superiority comes from simplicity. So relax, sit back and please, do stay for a while.

We welcome you to Breakwater!

Thank you, Phil, Vic, Kenny, Andrea and team.
